※As a characteristic of the product, processing wrinkles on the exterior, processing scratches on the inner rim, and squeaking noise during running may occur, but please note that there is no problem with safety.

※Hub bolt mounting hole diameters are available in 15φ for M10 bolts and 17φ for M12 bolts, so please specify when ordering.

※Some previously sold wheels have specifications that do not allow the center cap to be attached. Please contact us for more information.

**Please purchase the mk-1 nut as it is required to install the wheel.**
